

Company Profile

The Company

Delta 4 Security:

Our Company is a member of Dassouki Group, headquarters are based in Damascus at city centre. The company has ever since been developed to become a specialized engineering, sales, contracting and services company operating in the field of safety and security.

We take pride with the high caliber team of experts and professionals who are profoundly trained to constantly serve clients round the clock. We also enjoy long-term and distinguished partnerships with multi-national renowned companies. The core of competence for our group lurks with its credibility and professionalism.

Overview

Who We Are

Delta 4 Security is an eminent leader in the safety and security field with a high profile prevailing in the Syrian market. We have been involved in serving our customers and in empowering them with the business insights and solutions for their projects to serve their needs.

Our Mission

Our mission is to place Delta 4 Security at the forefront of the Syrian security industry in the delivery of integrated security solutions and services. We will achieve and maintain a significant market share through delivery of quality services and competitive pricing. We will do this through experienced and skilled employees, through our reliability, integrity, and customer care and through innovative application of technology.

Delta 4 Security Goals:

Our aim is consistently to achieve customer satisfaction, employee loyalty and sustained profitability.

This will be based on the following foundations:

Optimal use of local knowledge

Customer focus

Pool of expertise

Performance and performance monitoring through KPI

Employing best people

Integrity

Teamwork and collaboration

Our Structure

The general operations of the Delta 4 Security are classified into three main departments as follows:

1) Sales Department:

Sales department is specialized in the supplies of a wide range of diversified equipment. We have been providing the cellular field and consistently responding to their massive requirements

2) Technical Services Department:

Thanks to the outstanding expertise of the technical department, The Delta 4 Security has been largely and successfully awarded very significant Turnkey projects and contracts in Syria involving miscellaneous security installations .

Delta 4 Security Major lines:

Since it was established the Company participated in the execution (design, supply, and installation) of various important projects falling under its major lines of activities:

- Safety and Security.
- Special security doors and Automatic operators.

Our plans are for a good future expansion in all our fields of activities, we shall of course continue providing and improving our "After Sales" follow-up in maintenance, repair, expansion and up-grading.

For reference, we are enlisting below an overview of the Companies we represent or have completed an agreement with as well as the products we supply under the Security Field:
